Explore the magic of the Mont Blanc Massif and all the ski touring that it has to offer. Utilising the extensive ski lift system infrastructure, it is possible to access even the most remote corners of the range through daily ski tours with your knowledgeable guide. Staying in a Chamonix each night gives you the chance to relax, recuperate and soak up the atmosphere of this bustling mountain town with its great selection of bars and restaurants.

The best skiing around Chamonix is found off-piste across the huge area of terrain in the region. Our guides are tuned into where you can find primo snow by utilising a combination of lift access and short tours each day throughout your week. There are numerous glaciers to explore and often it is not far to find the untracked snow that makes touring so satisfying!

Classic ski runs such as the Vallée Blanche and the Grande Montets can be combined with ski tours around the Brévent, Les Trois Cols or the Crochues Bérard, to make up a multi-day program. Our resident guides have a comprehensive knowledge of the region and know where to find the best skiing in some of the most spectacular terrain.

You can use this week as a way to develop your ski-touring skills with the help of your guide or you may already be a seasoned ski mountaineer who has a specific penchant for certain terrain. You

decide with your guide on a programme that suits you, that can include as little or as much skiing as you want on the type of terrain that you prefer. This really is the ultimate holiday!

## HISTORY

The European Alps are full of climbing and skiing history. They are the birthplace of mountaineering and their rich heritage adds to the superb facilities, including catered huts and lift systems which provide catering for mountaineers and ski tourers not seen elsewhere.

## OUR GUIDES

Adventure Consultants guides are BMG, NZMGA and/or IFMGA-UIAGM qualified mountain and ski

guides. They are professional mountaineers and operate to the highest industry standards.

Being a technically proficient climber or skier is not enough to work with us; our standards demand that trip leaders are great guides with good people skills as well. You will find your guide friendly, approachable and focused on providing a safe and enjoyable trip in line with your objectives and comfort level.

Success with the highest margin of care is always a hallmark of our approach; promoting the realisation that even extreme pursuits such as high-altitude mountaineering can be undertaken safely.

Adventure Consultants only employs IFMGA qualified guides for European ascents and courses. Guides must undergo rigorous training and assessment on climbing and instructional skills, avalanche training and assessment, wilderness first aid, rescue training and much more to gain these qualifications. It takes many years to attain IFMGA status, which ensures you are getting a worldclass professional service.

## PREREQUISITE EXPERIENCE

To ski tour in the European Alps, you will need to be able to link parallel turns in all types of off-piste snow conditions, be physically fit and have a minimum of 5 days ski touring experience.

Even skiing at the moderate altitudes in Europe has a definite physical effect on people. Most skiers notice a lower performance rate than normal. Ski touring days are physically demanding and can entail a 1,000m/3,300ft ascent at altitude.

## TEAM MEMBERSHIP

The number of guides is determined by the size of the group. The ratio of guides to skiers is 1:2 or 1:4 depending on the skill level of the group.

From the village of Coupeau, a gentle ascent through the forest takes us up past Chalet de Chailloux. We spend some time refreshing skills and eventually descending back down through the trees to Chamonix. Overnight at our Chamonix hotel.

## Day 2

### *Col d'Argentière (3,552m/11,654ft)*

At the top of Col d'Argentière, we are rewarded with amazing views of the Argentière basin and the summits of the Aiguille Verte, Les Droites, Mont Dolent and the Aiguille de Chardonnet. The terrain is huge and the skiing spectacular! We return to Chamonix and overnight at our hotel.

A long traverse descending into the Aiguilles Rouges Nature Reserve takes us to our second 200m/650ft gentle climb on skins to the Col de Bérard. All of our efforts are rewarded with a stunning ski down the Combe de Bérard to the village of Le Buet. From here, we take the train back to Chamonix and overnight at our hotel.

### *Col des Autannes (2,777m/9,110ft)*

From the Le Tour ski area, we have a climb of 650m/2,100ft up to the col before a brilliant descent on north facing slopes that often hold very good powder snow. This takes us down to the village of Trient in Switzerland. A bus and then train takes us back to Chamonix and our hotel.

## Day 5

### *Vallée Blanche and Col d'Entrèves (3,527m/11,572ft)*

## EQUIPMENT LIST

Skiing in the European Alps requires high-quality clothing and equipment due to the extremes of weather conditions. Our focus is on having the essential clothing and equipment to keep you warm and comfortable while touring.

You will be sent an equipment checklist on confirmation of your booking and your guide will go through this with you at the beginning of your trip. You can rent ski touring equipment for the trip but you must provide your own appropriate mountaineering/ski clothing as per the equipment list.

Actual equipment taken may vary subject to seasonal weather and route conditions. Group equipment including ropes and technical hardware will be provided by your guide.

## INSURANCE

We strongly recommend that you take out Trip Cancellation Insurance and Travel Insurance, as well as Medical and Rescue Insurance to protect yourself in the event of injury or mishap prior to or during your trip.
